EXPERIENCE

TEKsystem GS, Bangalore — *Technical Lead/Associate Architect*

April 2014 - July 2017

- Worked on a very high volume, event processing and scheduling/email marketing system. Dev-Ops friendly, scalable, high throughput μ-Services leveraging AWS Cloud. Built in Java with Spring, Dropwizard, DynamoDb as persistence.

- Cloud based MDM solution in the BigData space for a finance company. Solution built on AWS EMR clusters, Datapipeline using Pig and Shell scripting.

Stealth Startup, Bangalore — *Co-committer*

March 2013 - December 2013

- http://github.com/prasoonj/baresniff is an API building platform that gives users quick and easy mechanism to build their own web APIs that can be later incorporated in an app.

Customer Centria, Bangalore — *Senior Engineer*

August 2011 - March 2013

- Worked on RESTful API based customer engagement products. Responsible for design, implementation and test.

EDUCATION

SASTRA University, Thanjavur— *B.Tech*

July 2004 - May 2008

B.Tech in Information Technology & Management.

RECENT ACHIEVEMENTS

Cloud, BigData   — *TEKsystems GS*
